

## Bill Print Flags

<b>Bill Print Flag</b>	<b>Description</b>
Y	Billing document is printed. FFIS updates all appropriate tables, dunning notices are generated for overdue balances, and unless otherwise specified, overdue charges are assessed.
N	Billing document is not printed. FFIS does not update tables. Dunning notices are not generated, nor are overdue charges assessed.
S	Billing document is not printed. FFIS updates all tables as if a bill was printed. Dunning notices are generated for overdue balances, and unless otherwise specified, overdue charges accrue.
E	Billing document does not print. FFIS updates all tables as if a bill was printed. Dunning notices are generated for overdue balances, and unless otherwise specified, overdue charges accrue.
C	Billing document prints (represents a continuous billing document). Once FFIS prints a bill for the first time, the bill will only be printed again if the Last Bill Date + the Cycle Days from AROP are less than or equal to the To Date entered with the Billing Generation Program.
